ACADEMIC BACKGROUND

Doc. TIERS, **Doctor of Technology**, **University of Turku**
05/2023 - 05/2025

Position: **Project researcher.**

- Doctoral researcher, supporting fellow researchers in Aeropolis project.
- Teaching assistant, VHDL System Design.
- Supervise MSc. Thesis works related to hardware acceleration.

MSc. (Tech) **Information Technology, Tampere University**
08/2020 – 02/2023

Major: Embedded Systems
Thesis: "Leak detection in water pipeline with machine learning: a case study with Oras intelligent valve" – GPA 3.89/5

PAST EXPERIENCE

Oras Oy, Rauma 05/2022 – 12/2022
Position, Thesis worker (*certificate*)

- Programming in C with Silabs microcontroller's SDK.
- Pre-process hydraulic data (flow and pressure) collected from a pilot pipeline.
- Train machine learning model to classify abnormal (leakage) data.

TIERS, Turku 12/2019 – 03/2020
Position, Visiting Research assistant / thesis work. (*certificate*)

- Design a smart home automation system with MYO haptic arm band.
- Control Arduino-based robotic arm by mapping IMU sensor data with the recognized gestures by the armband.
- Support other researchers to review related Health monitoring techniques.

LANGUAGES

English: Professional proficiency (B2/C1). **Vietnamese**: Native
Finnish: Elementary level A2.1

PUBLICATIONS & THESIS

Master thesis (copyrighted, sharable upon request)*

M. Nguyen, 'Leak-detection in water pipeline with Machine learning: A case study with Oras Intelligent Valve', Master Thesis, Tampere University, 2023. [Online]. Available: https://trepo.tuni.fi/handle/10024/145397
Condensed version (attempted for publication as WiP): https://www.researchgate.net/publication/360963340_Leakage_detection_in_water_supply_pipelines_using_machine_learning

Conference papers

PRESENTATIONS AND INVITED LECTURES

Paper presentation, "**EMG-based IoT System using Hand Gestures for Remote Control Applications**", *World Forum on Internet of Things 2021*, 06/2021.

PROFESSIONAL AFFILIATIONS

University of Turku, 2023-present
Doctoral researcher, Teaching assistant.

CERTIFICATIONS

Coursera, Deep Learning Specialization
EdX, Foundations of RISC-V Assembly Language
Udemy, Mastering Microcontroller and Embedded Driver Development

TECHNICAL SKILLS AND COMPETENCES

Programming: C, C++, VHDL, Python, SystemC, MATLAB
Development: Xilinx Vitis/Vivado, Visual Studio Code, Yocto SDK
Platform: Ubuntu 20.04/22.04, Petalinux
Machine learning: Scikit-learn, Tensorflow-lite, Pytorch
Robotics: ROS/ROS 2 (C++ and Python), Gazebo, RVIZ
